

## 2nd International Knowledge and Skills Olympiad in the Field of Lifestyle Nursing in Civilizational Diseases, Health - Focused FIRST ANNOUNCEMENT

**Department of Nursing Propedeutics and Department of Geriatric Nursing of  
the Medical University of Warsaw in cooperation with the National Medical  
Institute in Ivano-Frankivsk**

Invite bachelor's degree nursing students to participate in the prestigious,  
three-stage Knowledge and Skills Olympiad in the field of "Lifestyle Nursing  
in Civilizational Diseases"

**The aim of the Olympiad is to develop students' knowledge and skills, promote  
innovative solutions in nursing, and foster integration within the international  
academic community.**

### **Olympiad Structure:**

- 1. The first stage of the elimination** round will take place on **November 13, 2025**,  
in the form of an online general knowledge test conducted via the Google Forms  
platform.
- 2. The second stage of the elimination** round, scheduled for **December 12, 2025**,  
will consist of a specialized knowledge test held at the Medical Simulation Center of  
the Medical University of Warsaw.
- 3. The final – the third part of the Olympiad** – will be held in person, also at the  
Medical Simulation Center of the Medical University of Warsaw, where the top 16  
participants will face simulated practical tasks designed to assess their skills in real-life  
conditions.

### **Awards:**

**The winners and finalists of the third stage of the Olympiad will be awarded prestigious  
certificates confirming their competencies in the field of lifestyle nursing in civilizational  
diseases. The top participants will receive material prizes, and the Olympiad winners will  
be honored with statuettes awarded by the Organizing Committee.**

**We invite all interested individuals  
November 3, 2025,  
at the following address:
